

MOODY PRESS

C E L L A R S

If the grapes are good enough for the moody wine press, they are definitely worthy of your glass!

SAN JOAQUIN

WINE COMPANY INC.

The Schafer Family has grown premium wine grapes in the heart of California for over 30 years. In 2005, owners Steve & Cindy Schafer founded the San Joaquin Wine Company to produce quality wines from their own sustainably grown fruit and select California vineyards.

MOODY PRESS

There once was a small winery in Central California that used an Old Century wine press. After a few seasons, it was discovered that the old "moody" press would only operate with the finest quality grapes. Even though the press has been retired, you can still enjoy it's old spirit in every Moody Press wine made only with the finest grapes from California.
